

WOSCOR
Respiratory Nurse Meeting
27/10/21

In attendance:

Marie Beaton – Glasgow

Rachel McConnell– Glasgow

Kayleigh McKenna – Glasgow

Rachel O'Reilly Forth Valley

1	Welcome and Introductions The group identified which nurses were based across the west of Scotland who are involved with complex respiratory.	Action
2	Clinical Information The group discussed areas of work which could be a priority for the respiratory nurses. This included: <ul style="list-style-type: none"> • LTV • Tracheostomy care • Complex Asthma • Home Oxygen • CF • Breathing Management Plans • Complex Airways • None Invasive ventilation • Continuous positive airways pressure The group agreed to develop nurse led pathways around these topics.	
3	Education Needs Identified some areas that would benefit from an Educational Training day in Spring 2021/22 (see above). May also be beneficial to have a small training event at the end of one of the meetings to address some smaller needs in the interim.	
4	Pro-forma Marie has the old proforma which is in need of updating. MB to send that round and the flowchart in advance of the next meeting for review and discussion.	MB/KM
5	Date of next meeting 23 rd November at 10am on Teams
